### Supplies to gather at home:

- Scissors
- Ruler

### Directions:

1. Plug in the glue gun to start heating.
2. Cut the printed circle out of the wallpaper. (We used wallpaper samples and printed on them using the library copiers.)
3. Use the foam brush to spread an even coat of Elmer's glue all over the inside of the pizza pan. Don't make it overly thick or too skimpy.
4. Press the wallpaper circle inside the pizza pan. Use your hands to smooth out bumps and air bubbles.
5. Starting at the top of the pan, hot glue the rope along the inside rim of the pan to cover the edge of the wallpaper.
6. Take the 3 foot length of burlap and lace wire ribbon and overlap the ends to make a big loop. Holding the ends together in the middle, pinch the top and bottom to make a figure 8. Fold in each side of the 8 to make a double layered bow, with the top loop shorter than the bottom layer. Use dabs of hot glue to help hold the shape. Refer to the diagram on the back if needed. If you get stuck, you are welcome to come to the library and ask for Miss Huston.
7. Tie the middle of the bow with the short piece of twine (6 inches). Trim the ends.
8. Cut two 8 inch pieces of the buffalo plaid ribbon. Glue the ends together to form two loops. Glue one between the two loops of the burlap bow on each side.
9. Cut 12 inches of the plaid ribbon and set aside. Use the remaining short piece to wrap around the middle of your bow. Glue in place.

10. Cut the 14 inch piece of burlap ribbon in half. (Some are already cut in half.) Trim the bottom ends on an angle. Glue the top ends to the top of the pan for bow tails. Hint: Folding the top corners back helps hide the ends when the bow is all together.
11. Cut the 12 inch piece of plaid ribbon in half and trim the ends on an angle. Glue them on top of the burlap ribbons.
12. Tie a loop with the 12 inch piece of twine and glue it on top of the bow tails.
13. Glue the bow on top of the tails and the twine knot.
14. Cut the leaves apart. Glue one under each side of the bow.
15. Hang up and enjoy!
